

Perfection takes time.

The best finite element analysis software tests components prior to production.

We ensure that every detail of our Defense bodies gets the utmost attention, performing (or out performing) to the highest standards. Even our components are chosen for optimum functionality and performance, and they're tested prior to body construction from the ground up, based on specific requirements.

You never have to compromise.

TYPES OF TRUCK BODIES

M985 A2 HEMTT Cargo	M1089
M984 A2 HEMTT Wrecker	LVSR
M997 A2 EPP HEMTT	AUV
M1078 4x4	MTVR

A Tradition of Quality. Since 1905.

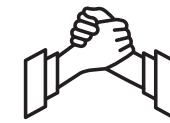

MANUFACTURING A CAPABILITY WHERE THERE WASN'T ONE BEFORE.

Marion Body Works Defense business has been building defense bodies and tactical vehicle components since the U.S. military set foot in the sands of the first Persian Gulf War. Our reputation for engineering expertise and an unwavering commitment to the highest quality manufacturing has earned the respect and admiration of Defense Contractors and Military personnel alike.

Marion Body Works is a proud, highly ethical privately owned American company with a proven track record stretching back to 1905.

Preparation is the greatest tactical advantage.
Put Marion in your column.

STRENGTH

- CNC production for exacting tolerances and precise fit
- Armoring capabilities
- More than 100 AWS qualified welders on staff

INTEGRITY

- DUNS# 05-624-4627
- Cage Code: 7Y710
- SAM Registered
- ITAR – DS2032 Registered
- JCP Registered
- Protected Technical Data Management Capability
- System Engineering / Program Management (SEPM)
- Total Package Fielding – CONUS and OCONUS

SUPPORT

- Complete reset / refurbishment capabilities
- Inventory management - traceable material purchases
- Spare and repair parts inventory and logistics
- Manuals, Provisioning Data, Training Data, Document Updates, Configuration Management
- NSN Prime Contractor Support
- System Technical Support, Interim Subcontractor Support

HISTORY

- FHTV (Family Heavy Tactical Vehicles)
- FMTV (Family Medium Tactical Vehicles)
- LSVR (Logistics Vehicle System Replacements)
- MTVR (Medium Tactical Vehicle Replacements)
- GTT (General Troop Transport)
