

**MARION®**

MARIONBODY.COM

**TANKERS**

- **Fight fires with your right-sized tank** with polypropylene tanks ranging from 2,000 to 3,500 gallons with a lifetime warranty.
- **You control your water dump** - you can select from manual, air, electric or one 3-way.
- **Hassle-free electrical you trust** with multiplex wiring as standard for easy troubleshooting; "as built" wiring diagrams created specifically for your apparatus.
- **Convenient compartments** - Low side-body compartments make access and storage of equipment easy.

- **Design that stands out** - Unique attack line and “pump and roll” capable designs maximize truck usage and stretch budget dollars.
- **Make an impression** with your corrosion-resistant body—construction is fully extruded, all-aluminum construction, including an integrated sub-structure.
- **Drive assured on a solid foundation** by choosing the chassis to form the base of your Marion tanker with a custom or commercial chassis.
- **Industry-leading warranties** - We provide a standard 2-year bumper to bumper warranty.
