

# 10 WAYS WE OUTPERFORM EXPECTATIONS

## WE MEET SPECIFIC INDUSTRY NEEDS THROUGH BETTER CONSTRUCTION

- >> Strong yet lightweight construction
- >> Corrosion-resistant hardware, doors, components
- >> Rigorous testing ensures durability, payload, capacity, maneuverability
- >> Customization includes rails, ramps, lifts, walls ... anything you need!

CUSTOMIZED TO DRIVE GREATNESS

Curtis Bardelli, Asset Manager  
CLEAN HARBORS

# A WILLINGNESS TO COLLABORATE, PROBLEM SOLVE, AND A CULTURE OF HARD WORK

"Marion Body is always willing to help Clean Harbors with any issues or business requests that are presented. Clean Harbors is proud to work with Marion Body."

## 10 WAYS WE OUTPERFORM EXPECTATIONS

### DURABILITY

- 1 Extruded aluminum is 36% stronger than most in the industry. We can take the punishment.

### SMOOTH SIDE CONSTRUCTION

- 2 Structural adhesives eliminate nearly all corrosion-loving rivet heads. Body graphics look great.

### NO DEAD BATTERIES

- 3 Motion sensor/auto-off dome lights automatically shut off. We treat your battery right.

### SUPERIOR CORROSION PROTECTION

- 4 Bumper to bumper attention: doors, bottom rails, rear frames, understructure, and more.

### PREMIUM DOOR HARDWARE

- 5 Steel pipe barlocks, cast steel cam pockets, extruded aluminum hinges, stainless pins ... talk about tough!

### POWERFUL LED LIGHTING

- 6 All marker lights, rear external flood lights, and inside flood lights. Stay super safe and secure.

### SMART RAMP CHOICES

- 7 Multiple styles of ramp—side ramps, split ramps, rear ramps—whatever works best for you.

### HEAVY-DUTY LIFTGATES

- 8 Available from 2,000 to 7,000-lb. capacities in various platform sizes. This is maximum reliability.

### REAR FRAME DESIGN

- 9 Smart construction lets the frame absorb impacts. Bring on the loading docks and forklifts!

### PREMIUM FLOOR MATERIALS

- 10 Durable floors result in decreased maintenance costs and increased body longevity.

### MARION VALUES (BONUS: WE ALWAYS GO BEYOND)

We're experienced, collaborative, committed, and uphold the highest quality standards.
